DETAILED ACTION

Drawings

1. New corrected drawings of Figs. 4 and 7 in compliance with 37 CFR 1.121(d) are required in this application because a majority of said drawings text and numbers are illegible). Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

Claim Rejections - 35 USC § 101

2. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

3. Claims 1-4, 8, 11-14, 16 and 17 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. Said claims fail to fall within one of the four statutory categories of invention. While the claims recite a series of steps or acts to be performed, a statutory "process" under 35 U.S.C. 101 must (1) be tied to another statutory category (such as a particular apparatus), or (2) transform underlying subject matter (such as an article or material) to a different state or thing (May 15, 2008 memorandum issued by Deputy Commissioner for Patent Examining Policy, John J. Love, titled "Clarification of 'Processes' under 35 U.S.C. 101"). The instant claims neither transform underlying subject matter nor positively tie to another

statutory category that accomplishes the claimed method steps, and therefore do not qualify as a statutory process.

Allowable Subject Matter

4. Claims 10, 19-26, 28 and 30 are allowed.
5. Claims 1-4, 8, 11-14, 16 and 17 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 101 set forth in this Office action.
6. In regard to claims 1-4, 8, 10-14, 16, 17, 19-26, 28 and 30 the cited prior art of record fails to teach or suggested the respective claim language when considered as a whole.

Response to Arguments

7. The prior 35 U.S.C. 101 rejection of claims 10, 19, 20-26, 28 and 30 is withdrawn in light of the respective instant claim amendments, Applicant's remarks and after further consideration.
8. Applicant's remarks in regard to instant claim amendments and the cited prior art of record have been fully considered and are persuasive in light of said claim amendments.
